OBJECTIVE

I am a motivated Computer Science student passionate about AI, machine learning, and full-stack development. I enjoy solving real-world problems by building efficient, scalable applications using Python and C++. I actively learn through projects, coding challenges, and open-source contributions, and I aim to apply my skills to impactful real-world projects.

EDUCATION

- **KL University** — Andhra Pradesh, India
  Bachelor of Technology in Computer Science, GPA: 9.92/10 — *Aug 2023 - Present*
- **Sri Chaitanya Educational Institutions** — Vijayawada, India
  Class 12 (Intermediate), Andhra Pradesh Board, Score: 973/1000 — *June 2021 - Apr 2023*

INTERNSHIP EXPERIENCE

- **AIML Intern** — Sep 2025 – Present
  Averixis Solutions — *Remote*
  - Learning and applying **Python, NLP, and Machine Learning** concepts as part of the AIML training program.
  - Working on data preprocessing, text classification, and model-building fundamentals.
  - Will be contributing to **real-world AI projects**, gaining hands-on experience in ML pipelines and NLP applications.

COMPETITIONS & CONFERENCES

- Active on **LeetCode** — 150+ problems solved and regular Weekly/Biweekly contest participation.
- Competitive programmer on **CodeChef** — regular contest participation; currently **1⋆ rating**.
- Consistently practicing DSA across **Codeforces, SPOJ, InterviewBit, and HackerRank**.
- Selected for the prestigious **Smart Interviews Program**, ranking within the **top 300 among 5000+ students**.
- Participated in **2 hackathons**, creating web applications that solve real-world problems.

PROJECTS

- **Healthcare Conversational AI** — Aug '25 - Nov '25
  - Built a medical chatbot using **Python, NLP, ML** to deliver accurate healthcare responses.
  - Trained the system on real datasets for symptom mapping, context retention, and intent detection.
  - Implemented entity extraction, dynamic dialog flows, and response generation.
  - Enhanced performance using BERT embeddings and continuous feedback loops.
- **Online Food Delivery System** — Jan '25 – May '25
  - Engineered a full-stack platform using **Spring Boot, React.js, MySQL** with real-time order tracking.
  - Created four modules: **Admin, Customer, Delivery, Restaurant** with complete role-based access.
  - Implemented order workflows, payment processing, and live delivery updates via REST APIs.
  - Automated deployments through CI/CD pipelines using **GitHub Actions + Docker**.
- **Employee Onboarding System** — Aug '24 – Dec '24
  - Designed an **HR onboarding platform** using **Django + JWT Auth** with secure dashboards.
  - Created modules for **Admin, HR, Employee** enabling document submission, approval, and workflow automation.
  - Developed scalable APIs integrating payroll, attendance, and full HR lifecycle operations.

AWARDS & CERTIFICATIONS

- Achieved a **9.92/10 CGPA** and secured a **top-100 rank** out of **5000+ students**.
- Earned the **Microsoft Azure Fundamentals (AZ-900)** certification.
- Completed **NPTEL Java Programming** certification from IIT.
- Awarded the **Cambridge English Proficiency Certification**, securing a **B2 proficiency level**.

SKILLS

- **Programming Languages:** C, C++, Python, Java (basics)
- **Machine Learning / AI:** Scikit-learn, TensorFlow, Pandas, NumPy, NLP
- **Web Full-Stack Development:** React.js, Node.js, Spring Boot, Django
- **Databases:** MySQL, PostgreSQL, MongoDB
- **DevOps / Tools:** Git, GitHub, Docker, AWS, Jenkins
- **Soft Skills:** Communication, Leadership, Problem Solving, Teamwork

POSITIONS OF RESPONSIBILITY

- **Academic Member:** *Veda Student Body Club, KL University*
- **Volunteer:** *Surabhi International Fest, KL University* – Coordinated events and supported the team
